Results are shown in below figure 1. In NYC, the most common venue is the Residential building. The reason is NYC is one of the most populated area which means the city needs a lot of residential building to allow people live in the area. Moreover, due to the large population, they need fundamental things such as beauty, health, and food. Therefore, the ‘Salon and Barbershop’ and ‘Doctor’s Office’ are the second and third most venues in NYC.
